Hacktoberfest: 2024 [github@rizwansoib](mailto:github@rizwansoib)

# Hacktoberfest 2024

Topics we will discuss

1. The Fundamentals of Open Source Software
2. Effective Use of Git
3. How to Contribute to Open-Source
4. GitHub Student Developer Pack
5. Ask questions, resolve doubts, and share knowledge

# Introduction To Open Source

# >git:contribute

# The Fundamentals of Open Source Software: Global and Indian Perspectives

Exploring the role of open-source software

## Definition

Software where the source code is freely available for modification and distribution

## Popular Open-Source Projects

Linux, Android, VLC, Chromium, Python, Wordpress, GIMP

## Indian Open-Source Projects

ERPNext, Chatwoot, Calibre, BOSS, BharOS

# Advantages of Open Source for Indian Developers

Developer

## Global Recognition

Reputation and credibility.

## Networking Opportunities

Global collaboration networks

## Job Market Demand

Open-source experience

## Fostering Entrepreneurial Mindsets:

Innovative solutions

Version Control, Repository Management, and Collaboration

# >Effective Use of Git

# Introduction to Git

A distributed version control system for tracking changes in source code.

- 1 Manage code versions
- 2 Collaboration with multiple contributors
- 3 Track changes, rollbacks, and history

# Core Git Concepts

## Repository

Storage area for your project's code

## Commit

Snapshot of your changes

## Branch

Parallel version of your repository

## Merge

Combining branches

## Pull

Fetching from remote repositories

## Push

Sending changes to a remote repository

# Git Workflow Example

Pull latest changes from  
the remote repository

Push the branch to the  
remote repository

Create a new feature branch

Open a pull request for review

Make changes, commit

Merge after approval

writing code, reporting issues, improving documentation, etc.

# >How to Contribute to Open-Source

# “Unlock Your Potential with GitHub Student Developer Pack

Tools and Resources to Enhance Your Development Skills”

# Thanks for listening
